

Purveyors of extra-dynamic power rock in the classic style with some unexpected undertones, Modern Day Heroes –Serge Christen (vox, guitar), Yves Fontana (bass), Heinz Baumann (drums) – have a knack for dead catchy melodies. Having played hundreds of shows at home and abroad over the years, they are also a seriously exciting live act. Hailing from Biel, a small town in Central Switzerland where French is spoken along- side German, Modern Day Heroes released their sixth CD „Stars&Skies on German label brillJant Sounds.
